

Listener supported FM radio station K-LOVE serves my family and myself by providing broadcasting with wholesome values and a positive and encouraging message. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, my family and local community members would be denied a truly singular, enriching, positive, family-friendly service. Keeping K-LOVE on FM 88.5, 98.3 and 92.1 as the FM translator service for these frequencies ensures a unique, enriching service is not denied to the community. Please consider fully the potential negative effects LPFM may have in my local community. Thank you.

Very respectfully,

Evan E. Jones
